Premier Ties C. of C. Party Change Needed

Conviction of Most Albertans Present System Must Be Altered—British M.P. Tells Of European Situation
Emphatically declaring that the people of Alberta today are progressive residents who are anxious to discover a remedy for the present economic impasse and are asking a fair chance to demonstrate their theories, Premier William Aberhart, in addressing a Chamber of Commerce luncheon at the Macdonald hotel on Friday, contended that the conviction of most citizens was that the present system must be changed.

NAVY PATROL SPAIN COAST NOW AT END

England and France Now Concentrate on Mediterranean Piracy
By GEORGE HAMILTON
Canadian Press Staff Writer
LONDON, Sept. 17.—The naval ring around Spain is ended. Great Britain and France, acting in concert, today notified members of the British non-intervention committee that their warships engaged in patrolling the Spanish coast will be withdrawn. They will be engaged in sweeping pirate submarines out of the Mediterranean.

The naval ring around Spain was part of the non-intervention scheme to prevent shipment of arms to Spain. Spain's coastline was divided into zones patrolled by Germany, Italy, France and Great Britain. Germany and Italy withdrew, leaving France to patrol the coast. Great Britain and France now divide the zone completely.

RAINS HINDER OPERATION IN ORIENT FIGHT

SHANGHAI, Sept. 17.—Heavy rain today asked the Chinese down military operations on the eve of the sixth anniversary of Japan's invasion of Manchuria. Three days of rain have bogged down the lines of Chinese and United States troops. Japanese planes and the ground troops have been unable to move. The Japanese did not stop attack, however, and Chinese guns fired on positions around Shanghai. Japanese positions all morning. The Japanese shelled many of the shells were falling within the Chinese lines.

COAST GUARD CUTTERS HUNT ENDEAVOUR

BONTO, Sept. 17.—Four coast guard cutters today were sent north to Nova Scotia in a fan-like formation, they scoured the sea for the missing Endeavour ship. The Endeavour was last seen on Monday night. The Endeavour was last seen on Monday night. The Endeavour was last seen on Monday night.

First Snowfall

SULTAN, Ont., Sept. 17.—Snow-fall of the season—first yesterday in this Northern Ontario community. The snow was about 100 miles north-west of Sudbury.

SITUATION IS ALARMING TO OTTAWA HEADS

Feel Complete Reorganization of Liberal Party in Alberta Necessary

Relative to Edmonton Bulletin
OTTAWA, Sept. 17.—Liberal leaders in Ottawa are shocked at the stand taken by E. L. Gray, recently elected leader of the Liberal party in Alberta, in writing to officials of a Unity Party and accepting a nomination tendered him by them after he had previously declined a Liberal nomination for Edmonton. They are pointing out that even if Mr. Gray goes before a convention called by his own party, his nomination is still at the behest of the Conservative-United Canada party, which is known here to be only a disguised Tory organization.

Alarmed at the outcome the general feeling here is that a complete reorganization of the Liberal party in Alberta will need to be undertaken in Alberta immediately. It is essential for the success of Liberalism in Canada to have an organization and party, each province which can be relied upon to take care of the next Federal election.

END OF POLIO EPIDEMIC NOT IN SIGHT YET

Health Authorities in Eastern Canada Hand Out Warning

By The Canadian Press
A daunting case-toll of the infantile paralysis epidemic brought from health authorities today a warning that the end is not in sight and that vigilance and care must not be relaxed.

Epidemic largely in Ontario, the disease spread to other parts of the country and total cases for Canada today at more than 1,600 since the start of the epidemic. The epidemic has been in Ontario. The national death toll was 68 but no deaths have occurred in Ontario since the epidemic.

C. OF C. PARTY ON MISSION OF GOOD-WILL

The Canadian Chamber of Commerce is holding a "mission of good-will" convention all the way across the prairie, said W. M. Clarke, Montreal, secretary of the Chamber. "We are on a good-will mission, getting acquainted with new friends and bringing back old friends," he said. "We are being urged to do so by the business community."

QUINTS COULD AID MYSTERY OF HEREDITY

CHICAGO, Sept. 17.—The Dimeus quintuplets might help in solving the mystery of heredity, said a University of Minnesota, today told the Associated Press. The quintuplets, born in Minnesota, today told the Associated Press.

Miner Killed By Rock Fall

DESMOND, Sept. 17.—First fatal rock fall in the season occurred this morning at Coal Products Ltd. Wayne, when John G. Rogers, married, was caught under a fall of rock, receiving a fatal injury. Rogers was working in a shaft when the rock fell. Rogers was working in a shaft when the rock fell.

Beauty Unmatched

Unplucked eyebrows, slightly tilted mouth, a simple, girlish cut, give a winsome, unpolished smile—fresh, unpolished beauty carried 17-year-old Betty Cooper of Macdonald, N.D., to the "Miss America" at the Atlantic City national contest, and proved that radiant charm flourishes in America's small towns as well as in metropolitan centers.

Expansion In Canada Better Visitors Claim

Party of Canadian Chamber of Commerce Members Arrive Here For One-Day Visit on Way East

Unanimous in their opinion that economic conditions generally throughout Canada showed a decided improvement over last year and that business prospects in the west were particularly bright, largest delegation of leading businessmen in the Dominion ever to visit the city, arrived in Edmonton on a C.N.R. special train from Jasper at 8 a.m. Friday. Delegates are returning east from the Canadian Chamber of Commerce convention held in Vancouver recently.

The party has been held in Jasper this week and will spend Friday in Edmonton. They are scheduled to leave the city at 11 p.m. and their program here provided for a luncheon at the Macdonald hotel and sight-seeing. Many of the prominent businessmen are expected to confer with their local representatives during their visit in the city.

West Forging Ahead

Expressing confidence in the business future of Canada, executives of opinion among delegates was that despite a temporary setback in the west, including serious drought conditions in Saskatchewan, Western Canada was forging ahead agriculturally and industrially.

Galaxy of Prizes in Bulletin Competition Draws Big Attention

Did you notice Thursday's shoppers pausing in their walks along the downtown business streets to take extra looks in certain store windows?

Yes, you're right. That's what was looking at. The amazingly handsome and valuable prizes which city merchants have supplied for The Bulletin's Advertiser Bulletin Competition are on display in all the best windows.

40 PRIMARIES HELD IN CITY BY LIBERALS

Keen Interest in Nominating Convention Seen Monday is Next

Interest in the coming Liberal convention Monday in the Macdonald Temple at 8 p.m. for the purpose of selecting a candidate for the coming bye-election, was reflected in the large attendance that gathered at the forty primaries throughout the city Thursday night to elect delegates.

ALL REGISTERED

Presided over by the convenor of the primaries, a registration of all persons attending the city took place, and in addition a poll was taken. The registration was a captain, vice captain, secretary and treasurer for each of the various districts in the city.

KEEP OPEN MINDS

In the letter of instructions, issued to the delegates, it was urged and read at every primary in the city Thursday night, that the delegates should keep open minds and be ready to accept any suggestion that may be made.

EXPANSION IN TRADE FROM PARLEY SEEN

London Attaches Significance To Washington Conference

By GRANT DINTER
London Bureau of The Edmonton Bulletin
LONDON, Sept. 17.—First significance is attached here to the forthcoming economic conference at Washington in October.

Twins Taking Time To Tell Torture Tale

LOS ANGELES, Sept. 17.—Two sisters have said they took time to tell their torturous tale.

Medico Comes Here To Study Fox Dissembler

WINNIPEG, Sept. 17.—A French physician, who is studying fox dissembling, will arrive here Saturday for a study of the fox.

Deserting Spanish Crew Put In Jail

FALMOUTH, Cornwall, Sept. 17.—The crew of the Spanish ship, the "Deserting Spanish Crew Put In Jail," were put in jail.

Wounded British Envoy Recovering

SHANGHAI, Sept. 17.—Sir Hugh Knatchbull-Hugessen, the British ambassador in China, is recovering from his wounds.

Resolution of Alberta Labor Body Approved

Creation of Social Ownership or the Producing, Processing and Distribution of Necessities of Life Asked

OTTAWA, Sept. 17.—P. M. (Paddy) Draper today was re-elected president of the Trades and Labor Congress of Canada for the third time.

CONSTABLE'S EXONERATED IN SHOOTING CASE

Commissioners Probe the Wounding of Welland Youth Here

Statements by James Dwyer, D. Welland, Ont., and Constable J. E. Peterson, of the city police, today featured the investigation into the shooting of a youth in Welland. The youth was shot in the back and was badly hurt.

DROUGHT AREA DEPOPULATION IS REPORTED

REGINA, Sept. 17.—A deliberate attempt to depopulate southern Saskatchewan is being made by at least 40 municipalities.

Contest Information . .

On Wednesday night The Bulletin announced four of the many prizes to be awarded in the winners in the Advertiser Bulletin Competition. The prizes were: a \$100 prize, a \$50 prize, a \$25 prize, and a \$10 prize.

Camseil Enthuses Over North West Mineral Treasure

Special Mention is Made by Deputy Mines Minister to Recent Discoveries North-East of Yellowknife Bay on Gordon Lake

VANCOUVER, Sept. 17.—The Northwest Territories, covering more than one-third of all Canada, has undiscovered mineral deposits to challenge the adventurous spirit of the explorer and the prospector for many years. Dr. Charles Camseil, deputy minister of mines and resources for Canada, said here last night.

Dr. Camseil was addressing the joint convention of the Canadian Institute of Mining and Metallurgy and the American Institute of Mining and Metallurgical Engineers.

He said the success mining development already has to its credit in the area "must make us regard the Northwest Territories not as a barren land with no mineral wealth but rather as a land that is burgeoning in the spring."

Dr. Camseil, who is also a member of the Territories and the American Institute of Mining and Metallurgical Engineers, said the success mining development already has to its credit in the area "must make us regard the Northwest Territories not as a barren land with no mineral wealth but rather as a land that is burgeoning in the spring."

The Inquiring Reporter

Mother Nature, for reasons known only to herself, has been treating Edmonton and district to clear blue skies, warm sunshine, and beautiful moonlight night. This apparent change of heart on the part of the Good Dame caused The Bulletin Inquiring Reporter to ask: "How long do you think this weather is going to last?"

MRS. W. H. OWEN, Edmonton's "weather lady": It won't be too long, you may be assured of that.

CECIL HEARN, trucker: Well, it should last two weeks. But after the way we've been treated this summer—first no rain at all, and then everyone nearly drowned out—perhaps this will go on till Christmas. I hope so.

BETTY KARESON, schoolyard: Say, with nights like these life is beginning to take on an entirely different meaning. We just sit and moon gaze and stargaze that way for months.

FRANK HAMILTON, student: Whether we hope the weather will be better or whether we just don't want make any difference as to the weather, it's all the same. The weather will last forever, anyway, although it may change. It's a question whether the weather is good or whether it's bad.

HERB HARMON, hotel clerk: Scram, will you? Let it alone. If you keep asking and getting no notice it, it may last.

EVEREADY PRESTONE

ANSWERS EVERY ANTI-FREEZE QUESTION!

1. Is PRESTONE used full strength?
No—you must mix Prestone with water, depending on protection desired.
2. Do I need to add more PRESTONE during the winter?
No—Prestone will not evaporate and no additions are needed unless there is a fault in the cooling system.
3. Is PRESTONE only an Anti-Freeze?
No—Prestone is more. It protects against rust and corrosion.
4. Will PRESTONE injure the finish of a car?
No—Prestone has no effect on any type of car finish.
5. Is PRESTONE Guaranteed?
Yes—the guarantee is printed on every Prestone can.
6. Where can I buy PRESTONE?
There are over 11,000 Prestone dealers in Canada—in every city, town, and community.

THE PRESTONE GUARANTEE
Canadian National Carbon Company Limited specifically guarantees that Eveready Prestone, if used according to printed directions in a normal cooling system will protect the cooling system of your car against freezing, corrosion, and rust. It will not cause any damage to car finish, and it will not cause any harm to the cooling system, and that it will not leak out of a cooling system tight enough to hold water.

IF IT WOULD HELP ALBERTA
EDMONTON BULLETIN IS FOR IT
FRIDAY, SEPTEMBER 17

THE "UNITED FRONT"

The only thing a political party has to "sell" to the public, the only bid it can make for public support, and the only claim it can advance to the name of party, is the program of proposals it offers for the better carrying on of public affairs. Ideas are the only assets and the only stock-in-trade of a political organization. Without these, a bankrupt as a party, it can be nothing better than a machine.

What idea has been offered to the people of Alberta by the gentlemen who have linked up the Liberal party, the Conservative party, the U.F.A., the C.C.F., the Communist party, the People's League, and any or all other non-Communist elements into what they call the "United Front"? Just one. It might be possible, they say, to thereby defeat the present Government, and in the event of a successful vote, to then proceed to elect a new Government. Beyond that they have nothing to say.

Perhaps the Alberta Government could be defeated by that remarkable combination of mutually distrustful and inherently hostile forces. But perhaps it couldn't be. The Government has the support of the people, and it would be called. If it chose to call the election now, it would have to go back to power with a new team of years ahead of it, instead of the three it now has.

Moreover, the attempted formation of this merger of its opponents in an open invitation and a direct challenge to the Government to call the election forthwith. So much for the expediency of the United Front idea: it would probably guarantee two more years of power to the Government than it can otherwise have.

A PROGRAM OF NEGOTIATION

Or suppose the Government were defeated. What would follow? Would it be a program of negotiation? Or would it be a program of the combination of political discrepancies got to the point of setting up a government on their own account? Who would be included and who left out? Which of the factions would be the crowd when it came to distributing portfolios?

What is proposed is not the dissolution of all political Credit parties, but the amalgamation of their members in a new party, but an alliance of the parties, each retaining its separate identity. Then how would the spoils of office be divided?

And on what lines, and at what's say-so, would the new government carry on? That is a subject for which nothing is said. Nothing is said of the importance could be said on the subject of causing an instant explosion and scattering the would-be components to the four winds. But it is said that the Government would be elected, neither day is it raised after the election in the event of victory. The commotion after the election would be a mere formality, the least resistance—which means do nothing, stand together and draw salaries.

The trouble with the United Front idea is that it is a mere merger of the "front" and "anti-front" and it couldn't be "unity," for the reason that it couldn't do anything. It is not even trying to do anything, but it is trying to do anything, beyond perhaps defeating the present Government. With no program, no pledges, no traditions, no principles, the hour of its victory—if it should win the election—would be the hour of its defeat.

The idea that prompts the fusion is purely negative, and a province cannot be efficiently or even tolerably governed on a policy of negation.

WHERE DID IT COME FROM?

All this is on the assumption that the United Front proposal is an outcome of the mutual desire of political opponents of the present Government to put it out of business; that there is nobody, and no group of interests, behind the entire pulling strings in the hope of herding all these opposing parties into one corral for purposes other than political.

In the circumstances that assumption is altogether too far-fetched to include anyone but the inexperienced and the unambitious. If financial interests are not behind this false scheme it is the first time a political merger has been conceived without their active assistance; and there are surely apparent reasons to suppose they are not. It is not a "case" but a "cause," and the concerned notion of what is going on in Alberta at the present time.

Canadian taxpayers have memorized long enough to know that a "union government" is being brought about something in the wind other than pure patriotism and an altruistic impulse to lighten their burdens and make life easier for them. They know that the political considerations in mind, is so desperately anxious to bustle the Alberta Government out of power, that it is willing to risk giving them a two-year extension of power? And who with only political objectives in view is anxious to link up all the political parties in a combination that would be incapable of taking any effective action toward monetary reform, real debt adjustment, and a fair dis-

tribution of the losses imposed by deflation, should it go into power? It is going to take a lot of explaining to convince anyone with experience and the average amount of "savvy" that the merger plan is not hatched in St. James street.

THE LONGER VIEW

The Alberta Government has three years to go, unless an election is brought on in the meantime by high-pressure agitation and it thereby obtains an extension of time. At the end of its term one of two things will have happened, inevitably. Either the Government will have made good its undertaking and will be paid the dividends of the Social Credit movement will have collapsed.

The late Mr. Fitzsimmons was right: "The bigger they are the harder they fall." The very proportions of the expectations aroused and the promises given will react to destroy the Government unless these are fulfilled. And if the Government falls because it cannot make good, it represents in the language that will be "up" and the Social Credit theory will be discredited and disproved in the minds of its present believers.

Meantime there isn't much that opposition parties can do about it—except to avoid anything in the way of compromising their own positions and purposes. They would do beyond any question if they joined in any sort of alliance that was or seemed to be engineered by financial interests. But they would do beyond any question if they joined in any sort of alliance that was or seemed to be engineered by financial interests.

The demand for monetary reform originated with the Liberal party, and stands for all to read in its written platform. That demand is also the present Government and the movement it represents in the language that will be "up" and the Social Credit theory will be discredited and disproved in the minds of its present believers.

Meantime there isn't much that opposition parties can do about it—except to avoid anything in the way of compromising their own positions and purposes. They would do beyond any question if they joined in any sort of alliance that was or seemed to be engineered by financial interests.

The demand for monetary reform originated with the Liberal party, and stands for all to read in its written platform. That demand is also the present Government and the movement it represents in the language that will be "up" and the Social Credit theory will be discredited and disproved in the minds of its present believers.

Meantime there isn't much that opposition parties can do about it—except to avoid anything in the way of compromising their own positions and purposes. They would do beyond any question if they joined in any sort of alliance that was or seemed to be engineered by financial interests.

Current Comment

AGREEMENT BETTER THAN WAR

While the Japanese and Chinese armies intensify their efforts to destroy one another, their respective governments continue to maintain friendly diplomatic relations. War has not been declared by either side, neutral supply ships cannot be halted and any naval blockade has to be confined to the shipping of the other "belligerent." It is a sad state of affairs, at least so long as the killing of a Japanese subject is nearing a settlement.

On the surface it appears that Japan and China have taken an irreconcilable step and must fight on until one or the other yields because of military or economic exhaustion. But the pastime of the Japanese is to compromise. If a peaceful people surpasses anything imaginable to occidentals, Japan realizes now that China is solidly opposed to any surrender that would reduce her to the level of a vassal state or deprive her of control over the five provinces of North China. She knows that the Chinese have developed formidable military strength that Japan could destroy only at a cost in money and manpower that her people would deplore. And she knows that the Chinese are determined to command the united approval of her own people and are re-organizing her from her best friends abroad.

The voice of criticism timidly raised in Tokyo and the actions of the Japanese government in sending Hachiro Arita to China on a diplomatic mission suggest that it may still be possible to bring the immediate hostilities to a halt. Hachiro Arita is a former ambassador to China and is in the eyes of the Japanese people a man of high standing. If Japan reaches for more than that she may forfeit the substance for the shadow and the shadow for the substance. It would be better to have a peace agreement that would be a policy of enlightenment—Toronto Star.

While most destruction to the lives and homes of Chinese and other non-combatants has been done by the Japanese, the Chinese seem to have attained more military objectives in the air than has the Japanese air force. This is more surprising because China has been believed to be weak in the air, though her pilots show greater natural aptitude for aerial fighting than do the Japanese.

For the 12 days from August 14 to August 31, Japan is said to have lost 81 war planes and had 11 damaged in the provinces of Chekiang, Kiangsu and Anhwei. The Chinese claim that 20 of these are said to have fallen at sea through being kept in the air too long and ordered back to Japan with insufficient fuel in their tanks. Since then the Japanese planes have taken toll of the Chinese.

Of the 61 Japanese planes downed, according to the report of the aeronautical affairs office, 24 were heavy bombers, 24 were light bombers, five were pursuit and three were fighters.

Forty-eight of the planes belonged to Japan's first fleet, the 1st Army, and the 13 Japanese planes taken alive are being held as prisoners.

Pity that the men who plan and start wars of this kind are not forced into the fighting line themselves.

They can't really cry "Spain for the Spaniards" in the light of the Spanish Civil War. The newspaper "ABC" — formerly the Royalist organ in Madrid — has recently published an account of the Spanish Civil War, showing the losses in the Santander campaign, as follows:

Italians 2,372
Germans 1,614
Americans 1,415
Others 502
Spaniards 57

The 57 Spaniards would be mainly officers of the land-owning class who led the Italian, German and American forces in their fight against the Spanish people.

The use and abuse of modern science is illustrated by two items of scientific information announced on the same day and with pretty much the same locality.

From Rochester, where it is holding its 29th annual meeting, the American Chemical Society announced discovery of a new method of making nitric acid from the air, and from the waste products of the chemical industry.

From Harvard the astronomers announced more exact methods of measuring the brilliancy of stars, and from the University of California the discovery of a new method for making TNT.

The new method for making TNT will enable the most powerful of all explosives for modern warfare to be manufactured at the rate of 150,000 tons per day, and the new method for making TNT will enable the most powerful of all explosives for modern warfare to be manufactured at the rate of 150,000 tons per day.

Instead of having to go to the expense and trouble of having the British and French navies keep gunboats from reaching a German port under a "non-intervention" plan, while the French navy is kept busy in the Mediterranean, the British navy could keep the German navy out of the Mediterranean, and the British navy could keep the German navy out of the Mediterranean.

A fascist dictator would be able to reward peace with the sword by a peace dividend of 100,000 tons of TNT a day.

The case for the astronomers is not so good. They report that our sun is only a dwarf star, and that the largest of the stars in the universe is only a few times the size of our sun.

It gives our sun only seven-tenths the brilliancy of other stars of its type.

It is a pity that the astronomers are not forced into the fighting line themselves.

Passing Show

By J. S. COWPER

In Gilbert and Sullivan's "Pirates of Penzance" the Pirate King sings:
"And it is, it is a glorious thing
To be a Pirate King..."

But that isn't the way Mussolini feels about it. It's one thing to grin when news comes that pirate subs are sinking tankers in the Mediterranean and chasing subs at British destroyers on patrol. It's quite another thing when destroying deep-sea charges and a battery in Cartagena sinks a pirate sub.

On the heels of the above comes an unconfirmed story that the battleship Arizona has captured a sub, and taken her crew prisoners, after it had sunk a Russian tanker. That the British Admiralty declines to confirm the story isn't surprising. It is a pity that the British Admiralty declines to confirm the story isn't surprising. It is a pity that the British Admiralty declines to confirm the story isn't surprising.

The sub (or subs) engaged in piratical work, is described as of Italian type of seven years ago, with name and number painted out. Since the pirate hunt started, Italy has let it be discreetly hinted in the highest of war-mongers, that she sold some of her subs to "another power." Nothing is to be gained at this stage by bringing home the guns to cover the proof of her guilt. The sub sunk off Cartagena will probably be allowed to rest there; that captured by the Malaya—if such it will—will probably be kept from confronting its lawful owner.

Italy stayed away from the Nyon conference, professing to feel piqued at Russian assertions of piracy. Italy was content to let the Nyon conference feel piqued at Russian assertions of piracy. Italy was content to let the Nyon conference feel piqued at Russian assertions of piracy.

Mussolini feels angry that the Conference allotted to Italy only the patrol of the Tyrrhenian Sea. He feels angry that the Conference allotted to Italy only the patrol of the Tyrrhenian Sea. He feels angry that the Conference allotted to Italy only the patrol of the Tyrrhenian Sea.

CE HAS HEART TAKE ON X-RAY PICTURE

NEW FARMER DISEASE IS TOLD PARLEY

Lungs Can Also Be Pictured As Aid To Tuberculosis Diagnosis

By STEPHEN L. McDONOUGH
Associated Press Science Writer
CHICAGO, Sept. 17.—A new electrical device which makes the heart automatically take X-ray pictures of itself was shown on Thursday before the International Congress of Radiology.

With its phosphor for the first time get accurate pictures of the size and shape of the heart in health and disease instead of an approximate image, according to its inventors, Dr. I. Seth Hirsch and Dr. Myron Schwartzschild, of New York.

In operation it combines three of science's newest tools—the electrocardiograph, which picks up the small electrical waves generated by the heart's cathode ray, and the X-ray tube which makes electronic waves visible to show the electrical waves, the photoelectric cell, or electric eye, which transfers light rays into the cathode ray tube where they are made visible.

MAKES LONG WAY
As the heart reaches its characteristic it produces a maximum electric wave which is picked up by the photo-electric cell. The cell immediately closes and the X-ray tube which makes a quick snapshot of the heart at that point.

By a simple change in the apparatus it may also be used to photograph the lungs at a single point in expansion or contraction. Dr. Hirsch explained that under conditions can be diagnosed more readily than ever before because of the greater detail obtained by continuous pictures made at the same point in lung activity.

TO ITEM 1.
Many cases of early lung disease can thus be found which otherwise would be blurred by the lung movements.

Stereoscopic pictures made of the heart and lungs with the new device, called a "cardiograph," give "perfect fusion and clarity and richness of detail that is truly astonishing," he said.

A new kind of lung disease resembling tuberculosis, which attacks only farmers, was reported today to the international congress of radiology. Dr. Richard Pawcett of Liverpool, England, declared the ailment, which is caused by breathing mould from hay or grain into the lungs, is similar to silicosis prevalent in the lungs of miners by breathing dust.

Apparently, he added, many farmers in Canada, the United States and other countries have the disease but it has been heretofore diagnosed as tuberculosis or silicosis. It is definitely an occupational disease, which appears in epidemics whenever mouldy hay or grain is hauled in the lungs or mold is handled.

Signs of the disease, which he urged all physicians in rural areas to look for, are difficulty in breathing, progressive loss of ability to do any work, coughing, slight fever, and evidence of tubercular signs even though no sign of the tubercular germ can be found.

Treatment of it is comparatively simple, he added, consisting of administration of potassium iodide and vaccines.

GROUSE OPENING ON OCTOBER 1
Ruffed grouse shooting season will commence on October 1 and will continue until October 15, according to an announcement by W. H. Wallace, provincial fish and game commissioner, who said there was some misunderstanding on the part of many in regard to the opening of grouse shooting.

Mr. Wallace described the territory was as follows:
Starting at the Saskatchewan-Alberta boundary, following the North Saskatchewan river upstream to this city, then south on the main Edmonton-Calgary highway to the point on that highway where it intersects the Red Deer river at or near the town of Red Deer, then upstream on the Red Deer river to the junction with the Beaver river, then following the Beaver river to the eastern boundary of the Bow River Forest Reserve at a line between Ranges 7 and 8, Township 30, West of the 5th Meridian.
All territory south of this line is the territory open for ruffed grouse shooting this year.

Chamberlain Back In London Saturday
LONDON, Sept. 17.—Prime Minister Neville Chamberlain will return to London Saturday from his vacation in Scotland, but No. 10 Downing street is undergoing alterations and he will continue temporary residence in 111, offshoot of the Chancellor of the Exchequer.

First And Last

My first and last marriage—and from the smile that Tallulah Bankhead, stage and screen star, flashed for photographers immediately after the ceremony in Jupiter, Fla. It wasn't hard to believe. Her husband, John Emery, New York actor, also appears happy.

Brown Skin Models Score Hit At Strand

Fifty-five minutes of dusky rhythm in the Strand theatre with the current attraction "Brown Skin Models," the Negro singing and dancing show which opened Thursday for a three-day run.

Brought back for encore after approval by the sustained applause of the first night, the show, featuring a variety of semi-classical and popular songs, and a very acceptable dish of the parades.

The Three Musketeers proved to be three boys who are extremely light on their feet, their six tapping shoes working in perfect harmony.

Virtually continuous music supplied to the act by the Strand Brothers swing band, which played both sweet and "hot" music equally well.

Standout performer of the band is the trombone player, who gave a splendid imitation of Duke Ellington and pulled his sliding horn up to the end of his act with nothing less than the mouthpiece, and still playing.

Chasley, agile master of the tap, used up a good portion of the stage when he delighted the audience with his solo dance efforts, and then did a splendid imitation of Stepin Fetchak, popular colored character.

Diminutive Al Stewart sang several songs during the show, and earned a good share of the applause in so doing.

A group of shapely maidens stood on pedestals high at the back of the stage for several living statues posed, leaving the front of the stage practically unoccupied.

"In Married Before Breakfast" the film attraction on the same program, Robert Young portrays an irresponsible but likeable young man who comes to a large sum of money, and the picture reveals his apical songs during the show, and earned a good share of the applause in so doing.

Madman's Island

By NARD JONES

CART CHARACTERS
KAY, DEANOR—Henson who inherits a yacht for vagabond.
MELITA HOWARD—Kay's roommate and co-venturer.
PRISCILLA DUNN—The third adventurist.

FOREST BROTHERS and GRANT HARPER—Young gentlemen whose expedition turned out to be a rare experience.

Yesterday: Failing to find Kay or Grant, the party returns to the "Mud" and there find a note warning them to "leave the island." It orders they "leave the island at once."

CHAPTER XIV
WHEN Grant Harper and Kay Deasborn went down those dark, deep steps they fully expected some death trap... perhaps an abandoned well to smother them out of existence. Or a pit in which they would be at the mercy of the owner of that insistent voice that came to them out of the night's blackness. Clutching Grant Harper's arm, Kay found her mind filled with all sorts of fateful possibilities. Step by step they went deeper, and she felt sure that each step would be the last.

"Here we are," the voice said. Then Kay felt the man brush past her, heard the unmistakable sound of a flashlight beam.

What Kay and Grant saw in that flash of light they would never forget to this day. It was a long, paneled hallway, well carpeted. Beyond was another door. Dazed, Kay turned to look back. She was the same man who had taken command of the "Chinook" and from whom she had attempted escape. Really he slipped the flashlight into his pocket, but the revolver he kept ready.

"You are surprised," he said with a smile. "I am not. I am proud of my little place. I find myself anxious to see it after so long a time."

"We're not anxious to see it," Harper said evenly. "We're not alone on the island. You can't possibly."

alone on the island. You can't possibly. "Never turn down hospitality," the man interrupted with a strange gleam in his eyes. "That you should take you into the living room. Please go ahead. The revolver moved over so slightly."

Kay urged Grant ahead. "Please," she said. "We may as well do what he says."

"May as well," the mad man chuckled pleasantly. "You must do as you will find the place what I say. You will find the place what I say. You will find the place what I say."

Kay shuddered, felt Grant's arm slip tighter around her waist. "Ready," he whispered. "Try not to show your fear. We may be able to..." He stepped as their strange host drew closer, opening the door from the hallway.

Ahead was a large room, paneled like the hallway, even to the ceiling. It was beautifully furnished, and the picture, and decorations reflected impeccable taste. "There is still more," the mad man said. "But suppose we sit here for a moment. You both must be—"

"Thank you," Grant Harper said. "You are a man of great means. You are a man of great means. You are a man of great means."

"You are surprised," he said with a smile. "I am not. I am proud of my little place. I find myself anxious to see it after so long a time."

"We're not anxious to see it," Harper said evenly. "We're not alone on the island. You can't possibly."

was no doubt that he was still aware of it. "I am glad you find it acceptable. You will have to excuse me for a brief time. There are some things I have to attend to. Please feel free here. There are cigarettes on the table there. In the sideboard you'll find fresh sandwiches, and a bottle of very good wine."

He started toward the door. "There he turned. "Of course, it will do you no good to try to escape. I wouldn't advise it. With that he left the room. Kay and Grant heard the lock turn definitely from the outside."

In panic, Kay started across the room toward the door. "Wait," Grant said. "One thing we must not do—and that's lose our heads. The man is obviously a paranoiac of some sort. But that may be our favor. At least he has nothing logical against us. He's not out for revenge against us in particular—so we may have a chance to dissuade him."

"But what can we do?" Harper smiled grimly. "For a moment, nothing. He said there was food in the sideboard. I move you make use of it."

"It may be poison," said Kay. Grant was at the sideboard. "Well, at least we can depend on the wine. This seal is authentic, and hasn't been tampered with." Kay watched him break it open, fill two glasses set atop of the sideboard.

He brought one to her. "Here you are. To what shall we drink?" Kay took the glass in trembling fingers. "There's no use," he said. "We're not going to kill us."

"Because," said Harper, touching his glass to hers, "we're going to keep him from it."

When they had sipped the wine, Harper walked to a fireplace where logs and kindling were laid neatly.

"A glass of wine and a hearty fire. Not bad, at all. He bent down, touched a match to the rolled paper. "We must accept his hospitality. It's very positive about it, you remember, and it may be the key to his host; if he has one. Harper stood up before the fresh blaze. "Remember, that smoke has to go somewhere above. It will be seen by the Mural."

"Do you really think they'll find us?" "One thing you can be sure of. Mac and Tom are looking. When we came along that path I could have sworn I heard the speedboat's engine."

It was more than an hour later when their host returned. Now he looked as Kay had seen him on the "Chinook," for his clothes were dripping wet.

"Ah," he said, smiling. "You have made yourselves at home. That is good. You will pardon my appearance, I know. Sometimes it is a bit inconvenient, living on an island without a boat. But then, I do not mind. I am a strong swimmer—and one does not quickly become a heart's fire."

Harper went forward disarming. "Better let me take your coat, old man. It's soaking."

The other shrugged. "Not so much as you think. You have been enough soaked. You have been enough soaked."

"Very good. You know, I'd like to know how in the world you've done all this. It's remarkable."

The other shrugged. "Not so much as you think. You have been enough soaked. You have been enough soaked."

AND THAT WAS KIND OF MAN CROZIER HATED

LONDON, Sept. 17.—Death of Brigadier General R. P. Crozier recalled to the Evening Standard one of his "weeding out" process in a brigade he took over in France.

Many officers were sent back to England. One asked why. "Why not, sir?" "You just don't fit in."

"Every week you get a pot of Devanille cream from home don't you? And every week you eat it all by yourself and never offer a spot to anybody. That's enough. You're not the type I want. Goodbye."

Mussolini's Son Fails To Learn Movie Business
NAPLES, Italy, Sept. 17.—Vittorio Mussolini, 20, his full face beaming, sailed today for New York and eventually Hollywood, to find what makes the movie business tick. With him was Hal Roach, his associate in a new Italian motion picture company.

Vittorio's younger brother, Bruno, and a lot of nobles were on hand to see him off.

His friends told something about the new movie company which he heads. Capitalization is \$2,000,000, of which Roach is putting up \$1,000,000. Vittorio and his friends are furnishing \$800,000 and a Rome bank the rest.

Out of the secret annals of the sea comes the strangest story ever told!

The great Liverpool to Boston packet, burned to the wateline, plunges to her death in the grim waters of the mid-Atlantic. 25 men and women, after long, grueling days battling roaring seas in a life-boat return to tell their deathless story, a story so strange it has no counterpart in the turbulent history of the sea, a story which brings about the most sensational trial in maritime history, a story which inspires the grandest sea drama of them all, Paramount's thrilling action-romance, "Souls at Sea."

FALLOW IS BACK FROM NORTH TRIP

Hon. W. A. Fallow, Alberta minister of public works, and G. H. McManis, deputy minister, returned to the city Thursday from an annual tour of southern Alberta in a Mackenzie Air Service plane piloted by Homer MacKay.

The two top men from north to south McManis, Mr. Fallow, Fitzgerald and Fort Smith, returned from their tour of inspection by a special train from Peace River to Edmonton.

Mr. Fallow addressed a meeting there and then flew to Fort Smith, John, B.C., returning to Grande Prairie, where the party were guests at a luncheon on Thursday. They arrived here about 6 p.m.

Provincial News Notes

BEATTY WILL ADDRESS MEET, GRANDE PRAIRIE

GRANDE PRAIRIE, Sept. 17.—Sir Edward Beatty, K.C. president of the Canadian Pacific Railway, will be the guest speaker at a luncheon meeting of the local Board of Trade on September 22. It was announced at an executive meeting.

A present plan for Sir Edward Beatty's party do not allow for stops at other points in this district, members of the board of trade in Claiborne, Vermilion, Hinton and Beavertown will be invited to attend the meeting.

The board made a grant to the Fish Club to enable them to rebuild the Clifton Point place they are purchasing. The need of more frequent stock trains was brought up by the president, L. C. Porteous, who stated that the last stock train carried 80 cars of stock.

A decision to request the Transport Commission to furnish information respecting the number of cars of grain which are transported by western Canadian milling companies last year was made for the purpose of trying to prove that grain which is being shipped by the millers, is of prime quality.

Wheat Yields 12-25 Bushels

GRANDE PRAIRIE, Sept. 17.—With perfect fall weather, sunny days and frosty nights, the wheat is in full swing in the district and will average 25 bushels per acre.

While wheat yields are generally higher than in other years, a lack of moisture in the spring and early summer, with only 12 to 25 bushels to the acre with some crops that will average 25 bushels. Grain is grading higher than last year, as there has been no frost yet.

Rites Held for Royal Colonial

LYDDEN, Sept. 17.—Funeral services for Stanley Buckham were held on Wednesday, the grave being conducted by Rev. J. H. Haynes, of St. John's Anglican church. Burial took place in the local cemetery.

The pall-bearers, who are members and friends of the deceased, were: H. Hall, H. Sutton, J. H. Brown, H. A. Albert, C. G. Campbell, C. L. Laus, DSO, P. L. King and H. Hall.

The Lyddminster Cooperative store closed their doors for hours while the funeral service of the man who had devoted much of his time and energy to the betterment of the province was held. The late Mr. Buckham was born in Lyddminster, England, and came to Canada in the first party of the Lyddminster.

North Red Deer Land Deals Made

NORTH RED DEER, Sept. 17.—Several five-acre parcels of land have changed hands in the district, as well as many valuable residential properties. Rev. Mr. Thompson, of Beaton, has bought the South side of the village, and Mr. and Mrs. Murphy (Mr. Murphy has bought the property) has bought the North side of the village, and is building a new home. The Duke of Devonshire has bought the property owned by Mr. McMillan. Mr. McMillan has bought the property of the village, and is building a new home. Mr. McMillan has bought the property of the village, and is building a new home.

Wheat Crops Are Only Fair

NORTH RED DEER, Sept. 17.—Wheat crops in Brooksley and Leduc districts are only fair, but in the other districts they are good. The crops are only fair, but in the other districts they are good. The crops are only fair, but in the other districts they are good. The crops are only fair, but in the other districts they are good.

THREASHERS HUMMING. BATTLE, Sept. 17.—After a week of rain, the threshing machines are humming this week. Birds, particularly blackbirds, crows and bluebirds, are congregating, prior to their annual flight to their winter quarters. Crows are singing, and are very noisy.

"THROWBACK" CHIN. ERSKINE, Sept. 17.—An Eskimo, a native of the north, who had been in the district for some time, was seen at the local Indian camp. He was seen at the local Indian camp. He was seen at the local Indian camp. He was seen at the local Indian camp.

GIVES NASAL SPRAY. BEAUFORT, Sept. 17.—Dr. Taylor, of Beaufort, gave nasal spray treatments to the children of Owen school, for protection against influenza. He also gave a nasal spray to a child of Owen school. He also gave a nasal spray to a child of Owen school.

WALK-RITE. BEAUFORT, Sept. 17.—A Walk-Rite window display was shown at the local store. The display was shown at the local store. The display was shown at the local store. The display was shown at the local store.

Fails Gunman

Struggling with an unidentified man who attempted to snatch a \$500 pay roll which she was carrying in an envelope under her arm, Miss Ellen Green (above), of Toronto, succeeded in saving the money, while her assistant escaped in a waiting automobile. Miss Green was returning to her office with money from the bank when she was attacked. The young cashier raised such a commotion, which attracted the attention of a taxi driver, that the would-be robber turned and fled with an empty envelope.

Man Dies In Car Waiting For Repairs. LYDDEN, Sept. 17.—Douglas Kerr, an insurance agent of North Battleford, passed away suddenly under unusual circumstances here about midnight last night.

Mr. Kerr drove up to the Howell Bros. garage on Main street with a party that late. As he was followed by another car waiting a taxi driver, that the would-be robber turned and fled with an empty envelope.

GRANDE PRAIRIE, Sept. 17.—The second car was filled with people to Mr. Kerr but found him slumped in his seat. Alarmed, the attendant went into the office to get a flashlight and it was then discovered that Kerr was apparently unconscious. Dr. Cook was called and pronounced the man dead.

Flames Destroy Pipestone Store. GRANDE PRAIRIE, Sept. 17.—The Pipestone Store, owned by Mr. and Mrs. Pipestone, was destroyed by fire on Tuesday morning. The loss is estimated to be around \$500, only partially covered by insurance. Mr. Pipestone intends to rebuild at once.

Women who are constantly despairing "I'm so hard on my feet" — here is a special prize for you! 12 pairs of lovely quality Hosiery — sheer enough for flattery... strong enough to wear and wear. And you can have them FREE — by finding the answers to simple puzzle drawings that will appear in The Bulletin Want-Ads section.

See This Prize Hosiery Now On Display In The WALK-RITE Window 10171 101st Street

RECORD NUMBER OF PUPILS WHEN SCHOOLS START. RIMBEY, Sept. 17.—Rimbeley public and high schools opened the first of September with a record enrollment in the four years. J. W. Menzies has commenced on his eighth year as principal of the high school. John Henry, of Lacombe, is in charge of the senior intermediate room and is also teaching several high school subjects. Miss Molly McNeil, of Rimbeley, is teaching her third term in the Rimbeley grammar school and Miss Eva Stuart is continuing as teacher of the primary grade.

Three rural schools in the Rimbeley district also opened on schedule with the following teachers in charge: Woodside, 3 miles east, Miss Claudia Barker, Edmonton; Ross, 8 miles east, Benjamin Schneider, Calgary; Meadowbrook, 14 miles east, Herbert Sharpe, Vergerville; Wilmet, 15 miles northeast, Joseph Mailing, Fiske Springs; 14 miles northeast, Steven Patrick, Thornby; Springfield, 14 miles north, Ellen Scott, Crystal Springs; 9 miles northeast, Geo. Goffrey.

Monte Vista, 8 miles north, John Manson; Monte Vista, 2 miles north, rural high, Paul Zaharnuk, Edmonton; Montezuma, 8 miles north, Geraldine Goffrey, Rimbeley; Bluff, C. Lee, 10 miles north, Evelyn Cook, Harmonia; 10 miles northwest, Ernest Brooks, Fernside; Dinwiddie, 21 miles northwest, Mrs. Emily Knives, Gullif, 15 miles southeast, Elsie Peterson, Beechy Mountain House, Chapel, 9 miles southeast, Ann Gaudier, Lacombe; Lockhart, 10 miles southwest, Clara Masing, Symons, 4 miles south, Mrs. C. C. LeRoy, Lerdahl; 14 miles southwest, Arthur Cunningham, Localite, Centre Vista, 12 miles southwest, Vivian Fossell, Benjamin, 14 miles southwest, Blanche Wallace, Mount View, 11 miles west, John Moore, Edmonton.

FOX EXPERT VISITS. ERSKINE, Sept. 17.—Hugh A. Peacock, representing Canadian National Silver Fox Breeder's association, of Summerville, Prince Edward Island, paid a visit to Erskine for fox rancher. Mr. Peacock is the Alberta field man for the association this year.

Fashionable English women used the long-tail coat during the last 18th and early 19th centuries. A folding fan with holes in the leaf, it permitted a woman viewing a rump stage play or hearing a bit of scandal to cover her face and peep through the holes.
